A trip to New York

In New York I was very sad,

New York's hotel was really bad.

Their dishes – they weren't good,

Every Monday I bought food.

Roads in New York were very full,

New York boys were very cool.

America's people are really fat,

There everyone has a furry cat.

I really didn't have a good day,

On Friday I went a completely wrong way.

New York was in the end very great,

At the airport I was late.

Last week – New York was the best state.
